Silicon Printed Neoprene Material: Resistant to water, dangerous chemicals, oils, heat and aging making for a long last durable pair of Fitness gloves. Train smarter and lift more without worrying about any Slips, Rips, Tears, or Calluses.

Full Palm Protection with Minimum Coverage: Designed to cover the entire palm and the thumb while allowing the rest of your hand to breathe when doing your intense gym workouts, weightlifting sessions, Exercise or WODs.

Wrist Wraps Support Adjustable: It offers both men and women a superior training experience and superior wrist support with each and every work out. They act like extra ligaments and tendons while the wrist is bent backward. They do this by distributing the weight pressure across the forearms instead of having your fingers support it all.

Comfortable and Convenience: The Wrist Wraps are tightened and loosened with hook and loop, providing the user the ability to adjust to their personal comfort. The well thought out open back design also provides for extreme comfort, giving your hands the ability to breath while doing intense workouts. LESS SWEAT and MORE VENTILATION equals NO BAD SMELLING Gloves, less washes, thus longer lasting gloves.

Versatility Workout Gloves: Improved grip & better wrist support for weight training, weightlifting, fitness, bodybuilding, powerlifting, cross training, WODs, deadlifts, chin-ups, bench press, pull ups, rope climbing and many more.

Pro Support Technology: Our Arm Blaster are designed keeping your fitness needs in mind, it is the ideal tool for Muscle strength, weight lifting and body building. The blaster body supports your elbows, enabling you to keep correct posture during curls and triceps exercises.

Advanced Design: Anyone who has picked up a barbell and proceeded to do curls will immediately notice it’s hard to keep their elbows still. Our Advanced Arm Curl Blaster keeps elbows locked closer to the body to avoid swaying, which forces your biceps to do all the work. Contoured plate isolates arms and shoulders while keeping back and elbows locked in position for curling exercise.

Heavy-Duty Construction: The muscle bomber can fit any sized body and is made of thick gauge Metal and has a padded support in the elbow and neck for comfort and stability. This biceps bomber has an adjustable Velcro strap made of webbed nylon, while the neck pad is made of NeopreneX. Our padded, dense elbow pads, mimics a curl barbell pad. This reduces unwanted momentum when performing dumbbell curls and barbell curls.

CUSTOM YOUR BRAND LOGO: We can offer custom printed your brand logo for your brand product sales on Amazon, eBay, or on your store.
